# ABOUT CRUISING KITCHENS

From trucks to trailers, containers to boats; the platforms for taking a business mobile, are unlimited. no job is too big or too small. At Cruising Kitchens, customer satisfaction is our top priority. we understand and appreciate the investment that every mobile business requires, which is why we have adopted a Policy of Transparency. Unlike other mobile business manufacturers, we allow our clients to track the progress of their build remotely through our website. Since every aspect of the conversion is done in-house, we proudly stand by our work with a one of a kind warranty, which includes facilitating the inspection process. Our design team coordinates with each client to create an atmosphere that is both accommodating to his or her stature and preferences. This process provides a truly customized mobile business that allows our clients to efficiently operate their business and deliver the best experience to their target market.
