Reports

American Rescue Plan CHC Funding Overview

- New Grant H8F Award Code
- One-time funding with 2-year performance period (4/1/21 – 3/31/23)
- \$6.1 billion in funding to 1,384 Community Health Centers and more than \$4 million per center
- Health Center Program LALs are also eligible for funds (HRSA-21-115) with 5/14/21 application deadline
- This is one-time funding, with no expectation of continued funding beyond the 2-year period of performance
- The **limit** for the award was calculated using the following formula:
 - Base value of \$500,000, plus
 - \$125 per patient reported in the 2019 Uniform Data System (UDS), plus
 - \$250 per uninsured patient reported in the 2019 UDS.

FY 2021 American Rescue Plan Funding for Health Centers (H8F) Award Submission Requirement Guidance

Purpose

H.R.1319, Sec. 2601 (b) USE OF FUNDS.

Amounts made available to an awardee pursuant to subsection (a) shall be used—

- 1) to plan, prepare for, promote, distribute, administer, and track COVID–19 vaccines, and to carry out other vaccine related activities;
- 2) to detect, diagnose, trace, and monitor COVID–19 infections and related activities necessary to mitigate the spread of COVID–19, including activities related to, and equipment or supplies purchased for, testing, contact tracing, surveillance, mitigation, and treatment of COVID–19;
- 3) to purchase equipment and supplies to conduct mobile testing or vaccinations for COVID–19, to purchase and maintain mobile vehicles and equipment to conduct such testing or vaccinations, and to hire and train laboratory personnel and other staff to conduct such mobile testing or vaccinations, particularly in medically underserved areas;
- 4) to establish, expand, and sustain the health care workforce to prevent, prepare for, and respond to COVID– 19, and to carry out other health workforce-related activities;
- 5) to modify, enhance, and expand health care services and infrastructure; and
- 6) to conduct community outreach and education activities related to COVID–19.

**AccuVax® ES and AccuShelf® addresses Subtitle G Section 2601 (b) (1), (3), & (5)
Uses (1) and (2) can be drawn down now, while others should wait for H8F awards**

H. R. 1319 Subtitle G—Public Health Investments

SEC. 2601. FUNDING FOR COMMUNITY HEALTH CENTERS AND COMMUNITY CARE.

Detailed Relevant Official Funding Use Categories

COVID-19 Vaccination Capacity

- **Supplies and Equipment:** Purchase COVID-19 vaccination supplies (e.g., PPE, hygiene and other disposable supplies), storage (including back-up systems), sterilization equipment, and moveable physical barriers, along with temporary signage to promote vaccination locations.
- **Vaccine Administration Workflows and Clinical Support:** Modify, enhance, and expand systems and workflows to efficiently and effectively administer COVID-19 vaccine, including aligning workflows with current and evolving public health guidance, enhancing and maximizing use of patient registries, enhancing clinical decision support and use of data from electronic health records (EHR), and coordination and collaboration with jurisdictions and other community partners.
- **Vaccine Management and Distribution:** Support vaccine ordering, distribution to administration sites, and inventory management, including activities necessary for participation in the [CDC COVID-19 Vaccination Program](#) and/or the [Health Center COVID-19 Vaccine Program](#).
- **Training:** Train health center workforce on vaccine handling, storage, and administration; assessment and prioritization of patients; and social and other barriers to accessing care.
- **Data Systems and Reporting:** Establish and enhance health center data systems that ensure that vaccine administration data are available, secure, complete, timely, valid, and reliable and support related data reporting activities.

Maintaining and Increasing Capacity

- **Immunization (other than COVID-19 vaccination):** Establish and/or expand adult and childhood immunization/vaccination programs, including aligning workflows with current public health guidance, maximizing use of patient registries, enhancing clinical decision supports and use of data from electronic health records (EHR), leveraging community partners, increasing staff, purchasing vaccines and supplies, storage, and outreach.
- **Equipment and Supplies:** Purchase equipment and supplies to support the provision of comprehensive primary care (e.g., clinical and diagnostic equipment; telehealth equipment; information technology systems to enhance data collection, exchange, reporting, and billing; equipment and supplies for use by remotely located staff to ensure continuity of health center services).

Infrastructure: Minor Alteration/Renovation⁴(A/R), Mobile Units, and Vehicles

- Modify and improve physical infrastructure, including minor A/R and purchase of mobile units and vehicles, to enhance or expand access to comprehensive primary care services, including costs associated with facilitating access to mobile testing and vaccinations, as well as other primary care activities.

AccuVax[®] ES and AccuShelf[®] Value Proposition

- 1. Safeguards vaccine viability** with ideal and guaranteed temperature control
- 2. Frees staff time for Top of License care** by reducing labor spent on vaccine management
- 3. Automates COVID-19 workflow and storage** requirements
- Supports vaccine ordering, distribution to administration sites, and inventory management with **real-time counts** accurate to the dose
- 5. Maximizes patient safety** with built in safety alerts
- 6. Minimizes vaccine waste & loss**
- Allows for **storage and separation for COVID, VFC, and Private** vaccines
- 8. 340b workflow and compliance reporting** available for other medications
- 9. Tracks vaccines, non-vaccine medications, and PPE and other supplies**

AccuVax ES Includes vaccine insurance coverage/replacement, total product warranty, annual maintenance, certified DDLs, and 24/7 customer support

AccuVax[®] and AccuShelf[®] Complete COVID-19 Vaccine Infrastructure

Manufacturer

- Manufactures and labels to spec
- Boxes for shipping

- ✓ Updates and extends expiry on lot by lot basis

Shipping to Customer

- In transit box storage
- Specialized distribution equipment and fridges/freezers
- Tracking temperatures with DDLs or approved boxes/configurations

Site Storage and Handling

- ✓ Temperature monitoring and alerting
- ✓ Pierce time/date and expiry tracking
- ✓ Expiry alert and near expiry alert

Patient Interaction

- Patient Safety and Release Forms (typically tablet or paper)

- ✓ Age eligibility
- ✓ Verifying manufacturer for series of doses (before 2nd dispense)
- ✓ Avoiding too many or too short time between doses

Reporting

- ✓ Reporting patient administration data
- ✓ Reporting real-time on-hand inventory
- ✓ Uploading Temperatures
- ✓ Reordering appropriate quantities

COVID-19 Workflow Videos

Watch these walk-through videos on the COVID-19 vaccine workflows

AccuShelf TM

- How to Load COVID-19 Vaccines - [Watch Load](#)
- How to Dispense COVID-19 Vaccines - [Watch Dispense](#)
- How to Return COVID-19 Multi-Dose Vials - [Watch Return](#)

AccuVax ES

- How to Load COVID-19 Vaccines - [Watch Load](#)
- How to Dispense and Reload COVID-19 Vaccines - [Watch Dispense](#)

Ensures Last Mile Integrity in COVID-19 Vaccine Efforts

VFC historical vaccine loss roughly 5%

- 1. Avoid waste of scarce vaccines (AccuVax ES lowers to ~1%)**
 - Avoid expiry spoilage (from next to expire workflow, and automated expiry updates)
 - Avoid temperature spoilage (better monitoring and real-time alerting)
 - Ensure matching limited supply with locations with need (real-time reporting)

Additionally up to 15% of vaccinated patients not fully protected

- 2. Ensure vaccine potency for maximum protection**
 - Ensure vaccines are stored at correct temperatures with real-time alerts
 - Avoid dosing expired/adulterated vaccines
 - List people getting 1st dose but not 2nd dose to ensure series completion

>80% of common errors can be avoided

- 3. Eliminate common vaccine errors**
 - Alert upon switching from one manufacturer (e.g. Moderna to Pfizer) to another
 - Prevent dosing more than indicated number of vaccines to the same person (3 vs. 2)
 - Ensure doses are given in indicated window (2-4 weeks after first dose)

AccuVax® and AccuShelf® In Use at >125 CHCs in 32 States

CHC/FQHC Testimonials Related to AccuVax® & AccuShelf®

“By standardizing our vaccine management with the AccuVax system, our vaccines are protected and allow our entire team to remain focused on delivering safe and effective immunization to all patients,” Variety Care CEO Lou Carmichael said. **“As a FQHC, Variety Care is dedicated to increasing access to quality health care services and improving the standard of care received by local community members.”**

- *Variety Care Standardizes Vaccine Storage and Handling Across all Locations Using the AccuVax® Vaccine Management System*
- <https://www.businesswire.com/news/home/20190806005292/en/Variety-Care-Standardizes-Vaccine-Storage-Handling-Locations>

“We serve a diverse and vulnerable patient population who rely on the vaccinations we provide to stay healthy,” Dr. Gray explained. **“AccuVax not only protects our vaccine supply, it eliminates cumbersome administrative tasks of tracking and rotating vaccine stock, allowing our staff to spend more time on caring for our patients and ensuring appropriate billing.”**

- *Family Health Care Clinic, Inc. Installs AccuVax® Vaccine Management System Across All Pediatric and Family Practice Sites in Mississippi, Alabama and Louisiana*
- <https://www.businesswire.com/news/home/20180531005632/en/Family-Health-Care-Clinic-Installs-AccuVax%C2%AE-Vaccine>

“OACHC is pleased to partner with TruMed Systems and their offerings of AccuVax and AccuShelf,” said Randy Runyon, President and CEO of OACHC. **“These offerings align with our support of the entire Community Health Center operations and enhance high-quality health care services by protecting patient safety and institutionalizing comprehensive inventory safeguards. Every Ohio Community Health Center now has access to the emerging standard in vaccine management with AccuVax, and the latest in inventory management with AccuShelf.”**

How Many AccuVax and AccuShelf Units do I Need?

AccuVax® ES and AccuShelf® TM addresses Subtitle G Section 2601 (b) (1), (3), & (5) and is eligible for HRSA-21-115.

For centers with multiple locations, each vaccination site should apply for:

- x1-3 AccuVax ES per site/facility. As many as you have vaccination storage locations to optimize workflow. Each one takes the footprint of one refrigerator, **(1)**
- x1 or more AccuShelf TM to manage any bulk storage inventory and Ultra-low-temperature monitoring and non-refrigerated vaccination PPE, and **(1) and (5)**
- X1 AccuShelf TM for each associated mobile clinic storage management **(3)**
- Units are available for lease or purchase. To maximize the value to the center and futureproof the solution, we suggest our 10-year purchase agreement to build the infrastructure to support the vaccination program and patient care years to come.

Contact Sales@AccuVax.com for support with finalizing number of units and obtain required budgetary quotes for your submission.

Example Quote and Value Backup Material

- TruMed will supply Quote and Support Documents
- AccuVax[®] ES and AccuShelf[®] addresses Subtitle G Section 2601 (b) (1), (3), & (5)
- Uses (1) and (2) can be drawn down now, so funds for units can be drawn now
- AccuShelf[®] TMs for mobile units should await H8F awards
- 10-year term, can be 5 years if you want to request less funds for this use
- Unit Price and Totals for Equipment List Form

AccuVax and AccuShelf Grant Inclusion Requirements

- 1. Project Overview Form**
 - Explains activities included in Grant Application
- 2. Equipment List Form (if applicable)**
 - Lists equipment, quantities, price and total
- 3. Federal Object Class Categories Form**
 - Breaks Equipment into federal and non-federal and breaks into Year 1 and Year 2
- 4. Budget Narrative**
 - Feeds the spend into categories (Equipment)
- 5. SF-424A Budget Information Form**
 - Final budget submission (totals and new)

Project Overview Form

List AccuVax and AccuShelf Vaccine and Inventory management under activity example language below:

- AccuVax ES and AccuShelf TM (for bulk) in ‘**COVID-19 Vaccine Capacity**’
 - AccuVax® ES increases vaccine storage and handling capacity, safeguards vaccine viability, frees staff time, automates Covid-19 workflow and storage, integrates safety checks
 - AccuShelf® TM Tracks Covid ULT temperatures, records dispenses, and monitors bulk vaccine storage. Alerts, tracks and reports for vaccine, medication and PPE storage and administration, integrates safety checks
- AccuShelf units would go in ‘**Maintaining and Increasing Capacity**’
 - AccuShelf to track medication and PPE inventory and reduce labor/stock outs
- AccuShelf® TM units for Mobile units in “**Infrastructure: ...**”
 - AccuShelf® TM (includes mobile, dispense and bulk storage) to build alerting, tracking and reporting for vaccine, medication and PPE storage and administration in mobile unitsZ
- Program Scope of Project
 - Can answer ‘no’ unless you have other activities that change your Program Scope. AccuVax® and/or AccuShelf® unlikely to change Scope
