

The Gaming Stadium announces Grand Opening *presented by TELUS PureFibre*

VANCOUVER, Canada, June, 3rd, 2019 – Myesports Ventures Ltd (the “Company” or “TGS”), a company hyper focused on building Canada’s first esports Arena, is proud to announce that [The Gaming Stadium](#) is opening its doors on June 28, 2019 at its new facility in Richmond, British Columbia. The Gaming Stadium is a center of excellence HUB for esports competitions, training, gaming leagues and tournaments.

The Gaming Stadium, powered by TELUS PureFibre – ensuring all gaming is supported by a 10GB symmetrical network - features a large main gaming stage equipped with 12 PC’s, a gaming area off-stage of 48 PC’s and boasts seating for up to 110 spectators.

Esports has soared in popularity, even as recently as the last two years. In 2018, it accounted for nearly 400 million viewers worldwide while OTT and traditional cable platforms took notice, with media and licensing rights topping \$180 million. By 2022, worldwide esports revenues are expected to rise to 1.58 billion according to PwC. “We are positioning TGS to lead in the space by delivering tournaments, leagues, training programs for new esports athletes and programs to support the existing pro player base. The beauty of the arena is that it’s also multi-faceted which allows us to service both the competitive side of esports as well as the Content Production side by capturing our athletes in action during live and streamed competitions. There is something for everyone, whether you’re a potential gamer, streamer, or just someone who wants to come and watch game-play, we’ve got you covered” says Spiro Khouri, VP of Sales & Marketing.

The Grand Opening festivities will be open to the public starting at 5pm with free advance tickets being made available Friday June 7th at 9am via www.thegamingstadium.com. The entire event will be live streamed on The Gaming Stadium’s Twitch channel located at twitch.tv/thegamingstadium.
