

### **About Inanovate, Inc.**

Inanovate, Inc, is an early stage life science company developing diagnostic tests for cancer, using a patented technology platform called the Bio-ID. The Bio-ID enables the accurate identification, validation and analysis of multiple different blood based biomarkers in one low-cost easy to use test. The first test under development on the Bio-ID is a test to identify false positive results from a screening mammogram; aimed at reducing unnecessary follow up imaging procedures and biopsies, that are both costly and stress inducing for patients. Supplementing this initial indication is a test to monitor the progress of breast cancer patients through therapy and beyond; aimed at identifying a recurrence event in its earliest stage, when it may be more effectively treated and cured. Longer term, Inanovate plans to continue to expand the Bio-ID's utility across additional cancer indications and selected autoimmune diseases. Inanovate's ultimate goal is to enable early and accurate diagnosis and monitoring of all cancer types through low-cost accessible blood tests.

### **About the South Dakotan Equity Partners Fund**

South Dakota Equity Partners is comprised of seasoned institutional investors, including banks, corporations, university foundations, economic development corporations, family offices and individuals. It was created as the result of an initiative started in 2015 by the South Dakota Governor's Office of Economic Development at Gov. Dennis Daugaard's request to fill a funding gap in equity capital for early and growth-stage companies. The fund held its initial closing in June 2018. South Dakota Equity Partners will invest in companies with significant growth opportunities and will work with portfolio companies to build them into industry leaders.

### **About T. Denny Sanford**

Entrepreneur and philanthropist Thomas Denny Sanford was born in St. Paul, Minnesota. In 1986, he purchased United National Corporation in Sioux Falls, South Dakota (the parent bank holding company for First PREMIER Bank), and built it, along with a newly-formed credit card company (Premier BANKCARD). The success of these two companies contributed to the economy and created more than 2,000 jobs within the state of South Dakota. Mr. Sanford has given \$70 million for the Homestake Mine Underground Laboratory Research Program in Lead, South Dakota, and donated over \$800 million to Sanford Health, including \$100 million to establish the Edith Sanford Breast Cancer Research Center.

### **About Sanford Health**

Sanford Health, one of the largest health systems in the United States, is dedicated to the integrated delivery of health care, genomic medicine, senior care and services, global clinics, research and affordable insurance. Headquartered in Sioux Falls, South Dakota, the organization includes 44 hospitals, 1,400 physicians and more than 200 Good Samaritan Society senior care locations in 26 states and nine countries. Nearly \$1 billion in gifts from philanthropist Denny Sanford have transformed how Sanford Health improves the human condition. For information, visit [sanfordhealth.org](http://sanfordhealth.org) or Sanford Health News.
