## ***Remyadry, a Dungeon Crawling RPG Inspired by Touhou Project was Released Today***

- 100% translated into English, the game is being sold on DLsite.com and Steam -

TOKYO, Japan – Eisys, Inc. today announced that they have released *Remyadry*, a dungeon crawling RPG developed by Kokoko Soft, on its online store DLsite.com and on Steam. *Remyadry* is an RPG inspired by Touhou Project from “Team Shanghai Alice”.

### [Story]

Gensokyo is connected with 'a certain world' and eventually a huge dungeon by the name of 'Mazes of the Week' appears. The mansion that protagonist Remilia Scarlet was living in is trapped within this dungeon. Cooperating with companions, Remilia and co. end up having to clear that dungeon.

### [Game Overview]

*Remyadry* is a mouse controlled RPG with character creation and dungeon crawling. Players can compose their party from a maximum of 20 units and fight their way through the dungeon.

### [Unique Features]

- Players can import their own image assets into the game to personalize the game experience
- Characters can be named freely
- Acquire more characters as the story progresses
- Characters can be powered up by distributing points earned in the game
- Earn skill points by progressing the game and customize your skill tree
- Most battles are automated for a smooth game experience

[Special Discount]

A 10% discount is being offered during the first week after release on Steam, so don't miss this chance to try out this popular indie RPG from Japan!
