## BIO

Arnobio Morelix is a Silicon Valley-based leader working at the intersection of technology, economics, and policy. His work has been featured in national and global media, including the *New York Times*, *The Economist*, *Wall Street Journal*, and the *BBC*, among others. Morelix has authored research and analysis with Stanford University, the World Economic Forum, the Inter-American Development Bank, the Kauffman Foundation, and others. A frequent public speaker and presenter at South by Southwest, Facebook, and the Federal Reserve Bank, Morelix has also advised and worked with CEOs, founders, and current and former government ministers.

Morelix is the Chief Data Scientist at Inc. Magazine. He also serves as senior advisor to the Global Entrepreneurship Network and the Business Angel Minority Association. Previously, Morelix served as Chief Innovation Officer at Startup Genome, leading a global team researching and advising governments and private organizations across 35 countries on their innovation policies.

You can find him on [LinkedIn](#) and [Twitter](#).
