HUMANTOUCH
Humanizing Technology

Capabilities Statement

About

Founded over 25 years ago, HumanTouch is an innovative solutions provider serving the U.S. Federal government spanning across civilian and defense sectors. As a small business, HumanTouch offers multiple ways to access our solutions, to include GSA MAS (IT-70) Small Business, USAF Cloud Services BOA and Navy SEAPORT-NXG Small Business. Agencies may also leverage SBIR authorities to procure innovative solutions using this Small Business Best in Class vehicle. We also offer other contracting options through our partner network to include CORAS (www.coras.com) for FedRAMP High solutions for data integration and decision-making, and Plasticity (www.plasticity.ai) for AI/NLP functionality.
