

PASSalert

In an emergency *every second counts.*
PASSalert provides peace of mind for you and your loved ones.

US Patent #7907048

PRESSURE SWITCH

PASSalert

US Patent #7907048

What it is:

The **Factory Installed PASSalert** is a modified fire extinguisher with a built-in electronic device. It plays a recorded message about operating the extinguisher while simultaneously contacting first responders.

Key Features:

- Provides instructions on properly extinguishing a fire.
- Makes using a fire extinguisher easier & increases fire safety.
- Message can be programmed in several languages.
- Wireless technology calls 911 & sends email / text notifications.
- Built into the handle with an easy-to-use activation switch that verbally recites the **PASS** system (Pull, Aim, Squeeze & Sweep).

Target Markets:

- Public Buildings
- Offices
- Vehicles
- Warehouses
- Households

PASSalert

US Patent #7907048

What it is:

The **After-market PASSalert** is a safety device that can be attached to any existing fire extinguisher. It plays a recorded message on proper operation while simultaneously contacting first responders.

Key Features:

- Provides instructions on properly extinguishing a fire.
- Makes using a fire extinguisher easier & increases fire safety.
- Message can be programmed in several languages.
- Wireless technology calls 911 & sends email / text notifications.
- Press the easy-to-use activation switch to verbally recite the **PASS** system (Pull, Aim, Squeeze & Sweep).

Target Markets:

- Anyone in possession of a fire extinguisher, most notably:
- Public Buildings
 - Offices
 - Vehicles
 - Warehouses
 - Households
