

America's Forgotten Children

<https://wisdomreporting.com/education/>

Millions of school children in the U.S. are being failed by the education system during Covid-19

38 million U.S. school children do not have the internet connectivity, suitable devices, or the at-home care that they need to succeed in home-education

Mississippi, New Mexico and other nearby states have about a third of each State's school age population lacking connectivity, technology and personal care

Percentage of students in the highest risk (red) group by state

■ More than 30%
 ■ 26% to 30%
 ■ 21% to 25%
 ■ 16% to 20%
 ■ 15% or less
