SAFETY RECOMMENDATIONS FROM

IntelliCentrics

Experience SEC³URE Healthcare

WE ALL PLAY A ROLE IN CREATING A SAFE AND SEC³URE ENVIRONMENT.

Your focus is on quality outcomes and patient safety. You must contend with a complex universe of regulatory requirements for all staff: medical, advanced practice clinicians, nurses, non-clinical, occupational visitors, and patient visitors. IntelliCentrics is the premier provider of managed services dedicated to the complete compliance life cycle associated with regulatory requirements. To create a culture of safety at your facility, it's important for you to know who is coming and going 24 hours a day/7 days a week and whether or not they meet your facility's security and policy requirements. The IntelliCentrics standards create a culture of vigilance to truly provide a safe and SEC³URE environment for everyone entering your facility.

Privileging Isn't Just for Physicians Anymore

We all play a role in providing a safe and SEC³URE environment. Outsourcing the frustrating tasks of the compliance process, including verification, monitoring and tracking, gives your team the freedom to focus healthcare.

IntelliCentrics enables you to engage with every person from doctors to volunteers who enter your facility so your organization's policies can be applied consistently and universally. In fact, you can subscribe to IntelliCentrics SEC³URE at no cost to your facility to credential and privilege only your medical staff. With a subscription, IntelliCentrics handles all of the infrastructure, technology, administration, verification, monitoring, service, and support so you can make privileging decisions with ease.

Healthcare Administrator

Provider or Care Giver

Patient

Friend, Family or Patient Visitor

Healthcare Supplier
