

FOR IMMEDIATE RELEASE

## **WeedGenics' Cultivation Capabilities Continue Expanding with the Addition of New Cannabis Strains**

From flower and pre-rolls to extracts, edibles, and other high-quality creations, **WeedGenics** is the go-to manufacturer for a myriad of cannabis and THC-infused products. Thanks to expanding production facilities in Adelanto, California, breaking ground in the medical cannabis industry in Oklahoma, plus their original Southern Nevada grow, **WeedGenics** has added more than 20 new strains to their product options.

The team at **WeedGenics** strives to provide the best possible flower to patients and pays careful attention to selecting and cultivating premium medical cannabis. With more than a decade's worth of professional cannabis horticulture expertise, **WeedGenics** produces high-turning results while ensuring efficiency and purity.

Additions to the top-shelf strains grown by **WeedGenics** include the following, often used by MMJ patients for numerous conditions:
