

SOLUTION OVERVIEW

Advancing the Power of RTLS in Healthcare

STANLEY Healthcare & Cisco DNA Spaces

Advancing the Power of RTLS in Healthcare

For healthcare providers, Real-Time Location Systems (RTLS) are proven solutions with a defined return on investment (ROI). Thousands of clinics, hospitals and healthcare facilities have successfully deployed RTLS for locating patients, staff, and equipment within large buildings or throughout campuses.

Regardless of the application or size of the healthcare environment, as organizations explore new ways to drive operational efficiencies and improve patient satisfaction, the need for deep and accurate information grows stronger. Information not just about the location of patients, staff, and equipment, but insights about how equipment or medical devices interact with clinicians, caregivers and ultimately patients. Powerful information that enables healthcare organizations to streamline staff collaboration and workflows, optimize clinical business and IT operations—with the goal of delivering stronger, more personalized care to patients. All while keeping patient data and medical devices safe and within compliance regulations.

STANLEY Healthcare and Cisco DNA Spaces

For over 15 years STANLEY Healthcare has partnered with Cisco—the world leader in IT, networking and cybersecurity solutions - to pioneer the use of RTLS over Wi-Fi in healthcare environments and provide enterprise-wide visibility and intelligence for healthcare organizations globally.

STANLEY Healthcare's RTLS platform has been fully integrated and certified with Cisco DNA Spaces—the next gen indoor location services platform—to offer a comprehensive solution that provides enterprise-wide visibility into the location and status of assets and people. Together, Cisco DNA spaces and STANLEY Healthcare

transform an existing Wi-Fi infrastructure into a powerful, unified network of sensors that unlocks real-time insights and information to empower caregivers to deliver better, safer patient care.

The new integrated solution is easily deployed, has a flexible configuration and simplified network management to support advanced RTLS use cases. The actionable network insights lead to stronger patient engagement and smarter operations in healthcare settings—in a secure, network-wide framework.

Cisco DNA Spaces is the backbone that enables STANLEY Healthcare's mission to provide a more efficient and safer healthcare environment regardless of the application:

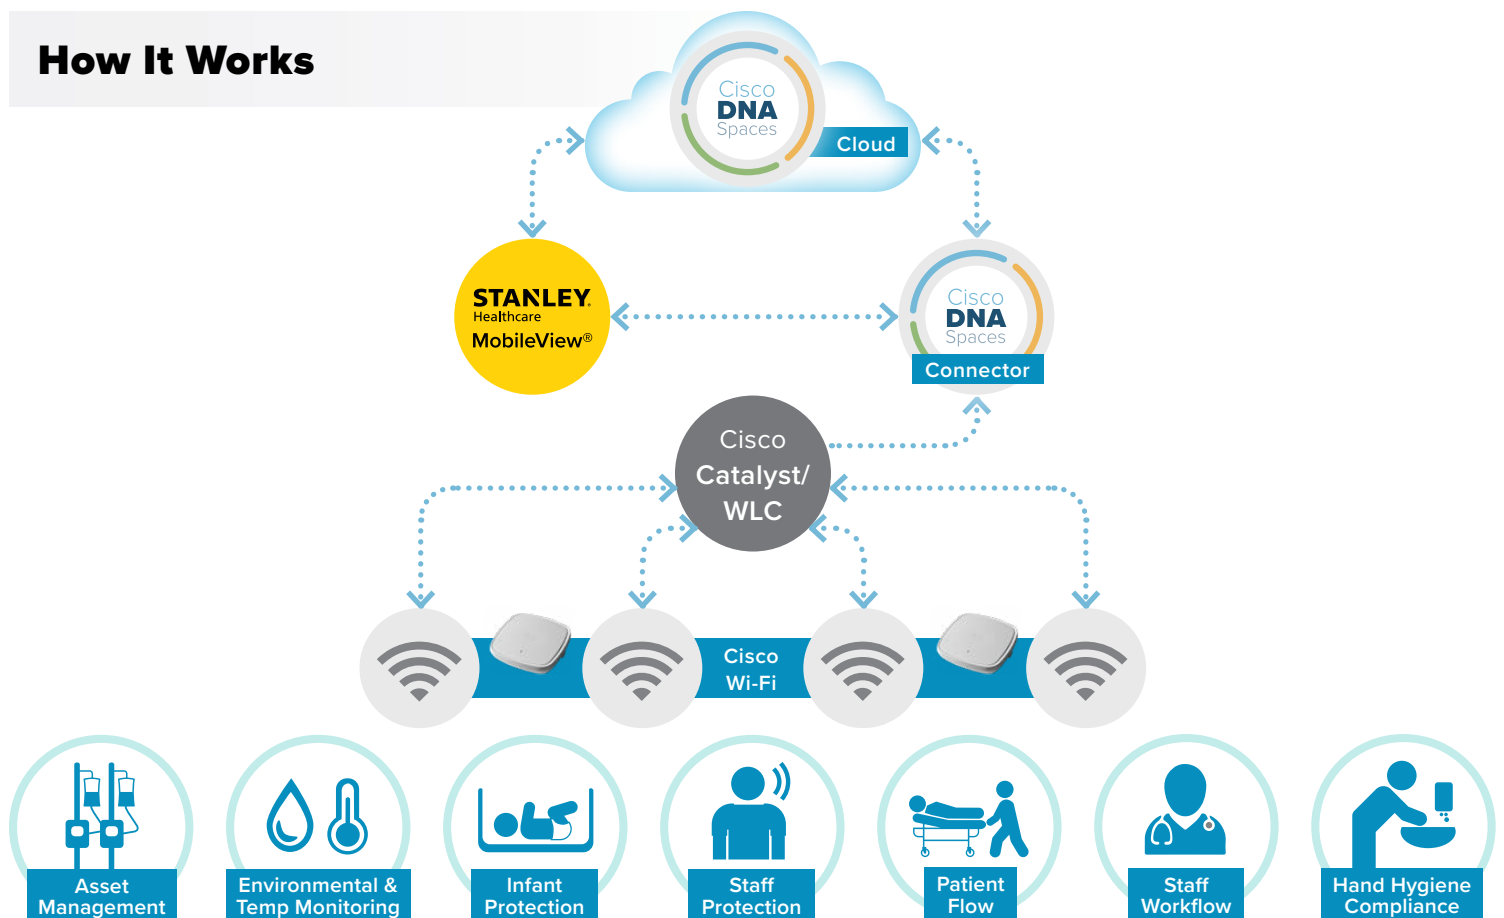

- **Staff, Patient and Infant Protection:** protecting staff and patients at every touchpoint throughout facilities.
- **Advanced Asset Management:** providing deep insights on asset location and status to drive cost savings and improve caregiver efficiency.
- **Environmental Monitoring:** 24/7 wireless monitoring to raise efficiencies, simplify compliance and reduce costs.
- **Staff and Patient Workflow solutions:** real-time visibility of caregivers and patients to optimize workflows, improve patient care, and maximize reimbursements.
- **Hand Hygiene Compliance Monitoring:** drive patient safety and turn caregivers into hand hygiene champions.

Cisco and STANLEY Healthcare: Better Together

Integrating STANLEY Healthcare’s RTLS solutions into Cisco DNA Spaces provides healthcare organizations with a powerful network to effectively manage and optimize their environment, and improve operational efficiencies while delivering a stronger patient experience. Integration benefits include:

- **Integrated and Streamlined:** STANLEY’s RTLS solutions are fully integrated with Cisco DNA Spaces to streamline upgrades and reduce complexities;
- **Scalable:** Combined solution scales seamlessly and offers improved performance to better support enterprise systems and IDNs;
- **Reliable:** Joint architecture reduces the frequency and duration of downtime due to cloud availability, remote 24x7 monitoring, and API monitoring;
- **Cisco Certified:** STANLEY Healthcare was first to be certified on Cisco DNA Spaces and named a Premiere Healthcare partner

How It Works

About STANLEY Healthcare

Over 15,000 hospitals and senior living communities rely on STANLEY Healthcare solutions to empower caregivers to deliver better care. STANLEY Healthcare is a part of Stanley Black & Decker and a proud supporter of the Alzheimer’s Association®. Learn more at stanleyhealthcare.com.
