

Certified Zoho Development

from  **KDG**

Solutions from Zoho Help You Grow

KDG boasts one of the only teams of certified Zoho developers in the United States. Using Zoho, we can help you manage your workflows, organize leads, improve workplace collaboration, develop mobile apps, and so much more.

Zoho Books

Manage finances, send statements, and simplify payments through a client portal.

Zoho Creator

Automate documents, organize workflows, and merge data.

Zoho CRM

Generate sales quotes, send automated emails, and interact with customers.

Zoho Analytics

Upload data from databases, create reports, and encrypt private info.

Looking for a Custom Solution?

Whether you need help with invoicing software, email automation, or data reporting, our award-winning team can help you integrate nearly any application with your existing Zoho account for the ultimate solution that helps you make the most out of Zoho.

KDG gives us a competitive advantage. To my knowledge, we're the only company in this area that has a proprietary technology to support our supplier enablement service.
