Bleuwire™

Website and Email Hosting

Your website and corporate email are too important for your business to settle for a second-rate infrastructure.

Trust Bleuwire™ with Your Clients

When it comes to your Client-facing technologies, things have to work flawlessly. Your website has to be always running, and your email connection to the market has to be unbroken. Too often, that means running those technologies on outdated or poor-quality equipment. Bleuwire™ hosts your website and your email systems on state-of-the-art hardware in a state-of-the-art data center. We do it with the highest levels of service and support, around the clock.

▶ Benefits

▶ Personal Guidance

From the start, you'll work with a Bleuwire™ website developer to set up your website and email accounts and make sure everything's operating as it should. Many other vendors force you to figure it out on your own, delaying your plans and causing extra work for your team.

▶ Full-Featured Controls

The generic control panels offered by other hosts leave a lot to be desired. The Bleuwire™ Control Center offers more automation and control - in real time - so you can adjust your site as you need it, when you need it.

✓ Accredited Managed Services Provider

✓ State-of-the-art Operations Center with Cutting Edge Technology

✓ 24x7x365 Remote Help Desk and On-site Support

✓ 24x7x365 Real-Time Network Monitoring

✓ Experienced, Certified Technicians and Engineers

✓ Dedicated Account Managers

✓ Predictable Monthly Cost, Scalable Level of Service

✓ Remote Resolution of Issues more than 90% of the Time

✓ Easy to Understand Graphical Reporting of Performance

▶ Flexible Hosting Plans

Other plans may look good now, but won't be able to keep up with your business growth. Once you need something more robust, there's the difficulty of moving all your assets to another provider. Bleuwire™'s flexible plans allow you to buy what you need now, knowing we'll be ready when you need to add on.

▶ Security and Reliability

With all the right protective measures in place, your site will be safe and secure from virus threats - and up and running 100% of the time, guaranteed.

▶ About Bleuwire™

At Bleuwire™, we don't think you should have to pay for services you don't need. That's why we offer a boutique approach to IT management so that you can select only the services that will benefit your company. The choice is yours.
