■Game introduction

Photon Cube is a unique puzzle game which you control the Rookie Cube Trailer “Ray” joining forces with her robot friend “Cu-Be”, interacting with bands of lights and various photon blocks to connect your way to the exit and clear the stage! It is a new type of 3D Prism Action Puzzle Game!

■Good graphics, Easy-to-Play and multilingual!

This game uses anime-style graphics and vivid colors to make it enjoyable for everyone, and it provides excitement and interesting logics of traditional puzzle games.

In “Photon Cube” you can use cubes to reflects, split and mix the light. If you have a little knowledge about the light you can clear the stages. This game is easy-to-play which makes everybody enjoy even if they have never played this genre before.

You’ll find many different cubes, obstacles and challenges through its 50+ stages!!

From mirror cubes that reflect light, cubes that can be mixed or split or even cubes that cannot be lifted!

This game has multi-language support!

It supports 10 languages! Japanese, English, French, German, Spanish, Italian, Dutch, Portuguese, Russian and Traditional Chinese!

It has a new mode called "Stage edit", where you can create your own stages, play them and if you clear the stage you'll get a code called "QB:CODE".

QB:CODE can be used from any platform and you can share your stages with everyone to let them enjoy too!!
