

## Sunset Learning Institute Announces Partnership with Arista Networks

**APRIL 1, 2022** - Sunset Learning Institute (SLI) is pleased to announce a new partnership with Arista Networks as the newest Elite Training Partner. SLI will now be offering Arista training as part of their already robust selection of technical training offerings. Arista Networks is an industry leader in data-driven, client-to-cloud networking for large data center, campus, and routing environments. They currently serve over 7,000 cloud customers worldwide.

*"The Sunset Learning Institute (SLI) - Arista partnership is a powerful combination. We are excited to provide cloud and network knowledge and training to thousands of companies and their employees worldwide. This partnership allows SLI to expand its product and content offerings to better serve our joint learners throughout their careers in technology. By joining forces, we are in an even stronger position to advance our collective mission and empower today's workforce – including both individuals and organizations – with the needed Arista technology skills for tomorrow" says SLI CEO Rick Morgan.*

Sunset Learning will launch the training partnership with the Arista Cloud Engineer (ACE) Certification Program. Arista training and certification uses a unique approach by focusing on Arista recommended practices for solutions, not just features and commands. The training program even goes a step further by aligning the skill sets to typical job roles. This program was designed to allow engineers to enter at a level that matches their current skill set. Later this year, Sunset Learning will launch new Arista Wireless curriculum as well which will be available globally for public or private training.

Terry Jenkins, Global Head of Training and Certification at Arista, commented, *"I am pleased to announce this new partnership with Sunset Learning Institute. At Sunset, they have recognized the strategic value of matching our customer's needs with a relevant and modern approach to training. I am excited to see Sunset step into this leadership role within our training partner program. We have set out to not only change how Arista trains, but how the industry trains. Sunset stood out as their leadership team embraced our new model and approach. Together, I believe we will transform the network and cloud training space while we educate the engineers of tomorrow."*

All public classes from Sunset Learning are guaranteed to run and are available either virtually or in person with a live instructor. Training can also be customized to fit any individual company's needs.

## **About Sunset Learning Institute**

Sunset Learning Institute (SLI) has been an innovative leader in developing and delivering authorized technical training since 1996. Our goal is to help our customers optimize their cloud technology investments by providing convenient, high-quality technical training that our customers can rely on. We empower students to master their desired technologies for their unique environments.

By offering both off-the-shelf courses and customized training solutions, Sunset Learning Institute is able to help technical professionals meet their career and certification goals. To ensure we understand our client's business needs from the start, our account managers take the time to collaborate with each customer through a comprehensive consultative approach. By recommending the optimal training path, our customers have increased job performance and maximized return on their training investments.
