

For Immediate Release:

Blended Perspectives Inc, an Atlassian Expert partner, is pleased to announce it has been awarded Platinum status. Blended Perspectives is the first Canadian company headquartered in Canada with Platinum status and one of a select few North American Platinum partners.

Platinum partners are an elite group of Experts that are experienced in the full Atlassian suite, and provide consulting, implementations and training services focused on maximizing customer value from Atlassian technology.

Susan Hauth, Toronto's Atlassian User Group leader and JIRA Queen, commented that "This is wonderful for Blended Perspectives, who have consistently supported the local market in Toronto and their Canadian client base whilst providing excellent support for the user group".

Come visit Blended Perspectives at DevOps Days Toronto on May 26-27 at Glenn Gould Studios! Blended Perspectives is proud to support the event and is a Gold Sponsor. For more information and to register, go to: <http://www.devopsdays.org/events/2016-toronto/>

About Blended Perspectives

Blended Perspectives provides a full range of support for Atlassian products including Agile consulting, training and support. Additional offerings include Development Operations and knowledge management expertise to enable the full lifecycle for clients. Blended Perspectives supports a range of both large Corporate and smaller clients across a spectrum of industries including Financial Services, Manufacturing, Telecoms and IT sectors.
