## iF Design Award | Environmental Friendly Rice Husk Packaging

AORUS believes in protecting the environment and has invested greatly in this ideal by creating quality packaging with rice husk as the main material. The result is a smaller and completely degradable shell that offers the same protection as before. AORUS is proud to announce a winning in the world renowned and prestigious iF design award 2018. “we started this packaging project not so long ago, purely to minimize the impact on our environment, the iF award is another nod to our vision and an acknowledgment that we can protect the environment by having great design cues” states Poon Chee, Packaging Design Manager at AORUS.
