

TruHorizon Announces Expansion of its Technical Service Offerings

November 15, 2019

Weatherford, Texas, November 15, 2019 - TruHorizon Environmental Solutions (“TruHorizon” or the “Company”), today announced that Bryce Docker has joined its technical services sales team.

“For over a decade, our goal at TruHorizon has been to protect the health, welfare, and surroundings of the communities we serve. We’ve accomplished this by partnering with great companies in the energy industry to reduce their impact on these communities. The hiring of Bryce Docker represents an exciting time for TruHorizon as we expand our technical expertise and service offerings to the construction and industrial markets. Bryce’s education and experience will allow us to support clients across all industries with their environmental and regulatory compliance needs,” said Michael W. Harlan, TruHorizon’s Chief Executive Officer.

Bryce Docker has 20 years of experience in environmental engineering and consulting with an emphasis on acoustics and vibration. Bryce’s previous experience comes from such notable companies as Bell Helicopter and Brüel & Kjær where he has worked with other engineers to develop innovative noise reduction technologies. Bryce is a graduate of Penn State with a Bachelor of Science in Physics and a Master of Engineering in Acoustics. He is a member of the Institute of Noise Control Engineering and the Acoustical Society of America.

About TruHorizon

TruHorizon is a full-service environmental solutions company headquartered in the Dallas/Fort Worth Metroplex, with operations strategically located in Pennsylvania, Colorado, and Texas. TruHorizon supports the North American energy, construction and industrial markets with turnkey solutions for noise and vibration control, air quality monitoring, stormwater management and inspections, and compliance management.
