

ENTEXS ANNOUNCES NEW PARTNERSHIP WITH HANNIBUS

Sacramento, CA – April 21, 2021: [ENTEXS](#), an **engineering** and **technology** company specializing in hands-free extraction solutions for the CBD and Cannabis markets has announced a brand-new partnership with [Hannibus](#), an emerging Hemp & Cannabis consultancy, headquartered in Austin, Texas.

Timely Union: Texas Hempire Market

[ENTEXS](#)' expansion and development into the Southwest region serves timely to the developing Texas Hempire, with over **1150** producer licenses issued, **5,000+** acres of Hemp in the ground, and over **15-million** square feet of hemp in greenhouses- reported by the [Texas Agriculture Department](#).

Partnership: Developing a Better Future for Our Farmers

Emil Bayan, Chief Operating Officer of ENTEXS, comments: *"Our team at ENTEXS is always excited to collaborate with motivated companies who strive to improve business development in the industry. We see Hannibus as a great compliment to our vertical."*

Hannibus Chief Sales Officer, Cliff Cook, comments: *"ENTEXS' values align with what we at Hannibus believe to be true – serving customers world-class turnkey solutions along with top customer service. ENTEXS' new cutting-edge T-Free Remediation technology will be an industry gamechanger, enabling customers to maximize their production efficiency and overall end-quality".*

Tailored Extraction Solutions:

Together, ENTEXS & Hannibus are teaming up to deliver tailored, made in the USA, cannabis and hemp extraction solutions nationwide. These **Extraction Solutions** will *reduce bottlenecks* and *problems* faced in the *traditional extraction process*, including a hands-free automated system that offers a **proprietary process** for T-free remediation. This 100% USDA Certified Organic process will enable extracts to meet far below **THC 1% compliance**, by remediating crude down to non-detect levels.

In addition, to complete systems, ENTEXS & Hannibus offer an *extraction component catalog* and support system customers with services such as:

- Installation
- Site Review
- Field Verification
- Permitting
- Operation
- Biomass
- Processing Logistics *and more.*

More About ENTEXS and Hannibus:

[ENTEXS](#) provides first-in-class technology with custom in-house manufacturing to evolve constantly and develop machinery for the hemp and cannabis markets' needs.

Its' patent-pending technology is a hands-free, continuous-feed, closed-loop system with no winterization necessary that increases productivity, yields, and quality of each extraction at a high capacity, industrial scale.

Hannibus: The Hannibus mission is to empower Hemp and Cannabis farmers, especially those from underserved communities, with the **knowledge, products, and services** they need most to succeed!

Hannibus is a boutique consultancy with a two-fold mission:

Firstly, to end predatory selling in the marketplace by matching farmer needs with quality and ethical solutions from their vetted & ethical product and service providers' community.

And secondly, to offer education and value-added resources to **lower the Entry Barriers** for today's growing farmers with the tools they need to build, grow, and scale operations.
