

Adjustable Forced Air Heater - 120V - Propane - 400 CFM, Up to 125K BTUs - 10' Hose/Regulator - Blue

Part #: GAU-GFA-HH-125K

The Larson Electronics GAU-GFA-HH-125K Adjustable Forced Air Heater is a powerful heating solution for indoor facilities. This propane unit provides 400 CFM of air flow and an adjustable heating range of 95K/110K/125K BTUs. Capable of electronic ignition, the portable heater is mounted on a flat base and comes with a 10-foot hose and regulator.

The GAU-GFA-HH-125K is a forced air heater for indoor locations. Capable of heating spaces up to 3,125 square feet, the unit operates on 120V AC 60 Hz. This compact heater offers adjustable heat output settings at 95,000; 110,000 or 125,000 BTUs and 400 CFM during use. Operators are provided access to a 10' hose and regulator for attachment to the supply valve of the propane tank and a gas valve knob.

This unit consumes propane at a rate of 4.4 lbs/ 5.1 lbs/5.8 lbs per hour and is capable of a maximum runtime of 22.7 hours @ full tank. Safety features include the following: high temperature shut off, flame out fuel cut and thermocouple. Gas controls are enclosed for protection.

Wiring: The GAU-GFA-HH-125K comes with a power cord for completing electrical connections.

Mount: The GAU-GFA-HH-125K is mounted on a flat base stand with a top-located carrying handle for portability and seamless transportation around the work site. The height of the base can be adjusted for accurate placement of the heater.

Applications: Construction sites, warehouses, commercial spaces, industrial buildings, schools, indoor facilities, barns and more.

At Larson Electronics, we do more than meet your lighting needs. We also provide replacement, retrofit, and upgrade parts as well as industrial grade power accessories.
