The story of Stråla Skincare begins in Sweden, where the land's precious resources possess exceptional and effective powers for the skin and has been the Swedish woman's best kept secret to achieving her "Radiant Glow" until now...

A Swedish native living in Beverly Hills, founder Nicole Winter is well known for her work in film and television, including the #1 Scandinavian show Swedish Hollywood Wives. After fighting the "age battle" in Hollywood when she turned 50, Nicole decided to take matters into her own hands to find an alternative to invasive and sometimes harmful procedures.

Leveraging her knowledge of natural Swedish botanicals and Hollywood skincare secrets, Nicole worked with top chemists and scientists to develop a revolutionary, all-in-one product with only top quality ingredients at highly effective concentrations to enhance and simplify an on-the-go, luxurious skincare routine. Now, six years later, that goal was achieved and became the foundation for our Aktiv-8 Cellulär Komplex and the Stråla One formula.

Now, it's your turn to Radiate Ageless Beauty!
