

## **Epomaker DynaTab 75X - The Indispensable Keyboard Collection for 2024**

Epomaker is thrilled to announce the launch of its latest masterpiece, the DynaTab 75X, on Kickstarter.

Prepare to embark on an odyssey of mechanical keyboard excellence as Epomaker proudly unveils its latest marvel: the DynaTab 75X. This revolutionary keyboard promises to redefine the very essence of customization, performance, and versatility, setting a new standard in the realm of mechanical keyboards.

### **Compact 75% Desk-saving Layout with Gasket Structure**

The Epomaker DynaTab 75X marries compactness with functionality, boasting a sleek and futuristic 75% layout that defies convention. Compare to traditional tray, top, or bottom mounts, the gasket-mount structure has long been known as the most popular structure in mechanical keyboards for its bouncy typing feeling. Engineered with precision and elegance in mind, its premium gasket structure ensures each keypress is met with unparalleled stability and consistency, transforming every keystroke into a symphony of precision and satisfaction. The keyboard boasts an array of features that cater to the diverse needs of keyboard enthusiasts. The compact 75% layout strikes a perfect balance between space efficiency and functionality, offering a seamless typing experience without compromising on key functionality. The keyboard is equipped with customizable RGB backlighting, allowing users to personalize their setup and create an immersive gaming or work environment.

### **Customizable RGB Dot Matrix Screen**

One of the standout features of the DynaTab 75X is that it is a groundbreaking mechanical keyboard that ingeniously incorporates a gasket structure with 540 RGB color dot matrix LEDs. Featuring a mesmerizing canvas of 540 distinct RGB Dot-Matrix LEDs, the DynaTab 75X opens up a world of possibilities for intricate pattern designs and dynamic GIF animations. Exploring a myriad of custom light effects and displaying letters respond to each keystroke simultaneously on the screen. With the Epomaker driver, users can design, draw, and upload favorite animation effects directly onto the dot matrix screen, infusing a playful touch of fun into daily typing routine. The DynaTab 75X is equipped with its hot-swappable key switches, providing users the flexibility to customize their typing experience without the need for soldering. The button beside the dot-matrix screen is functioned as a screen controller, toggling different screen display at a press. Thanks to the intuitive software that empowering customization in every aspect, from customizing each key to programming macros, and designing patterns and animations for the dot-matrix screen. The possibility for DynaTab 75X is endless.

### **Ultimate Sound Profile**

In the realm of mechanical keyboards, the sound profile plays a pivotal role. Epomaker ensures the DynaTab 75x excels in this aspect by equipping it with Poron Sandwich Foam, 8x IXPE switch

sheet, and Latex Shaft Base Foam to absorb the hollow sound and minimize the key stress to make sure the switch's durability. Moreover, the gasket structure with PC positioning plate and Silicon plugs assure a soft and rebound typing feeling. To further enhance stability and the sound profile, the keyboard incorporates a slow-rebound sound absorbing foam as the bottom foam.

### **Multi-device Synchronization and 10,000 mAh Large Battery**

Epomaker DynaTab 75X is an excellent solution for multitasking. Navigating through tasks is made more convenient with the inclusion of dedicated arrow keys and a compact layout, making the DynaTab 75X a versatile choice for professionals who require efficient workflows. The keyboard is compatible with Windows, Mac OS, and Linux operating systems, ensuring a seamless experience across various platforms. With a formidable 10,000mAh battery and advanced fast-charging technology, the DynaTab 75X delivers sustained power and unrivaled endurance, allowing users to stay productive without interruption. Say goodbye to downtime and hello to endless possibilities with the DynaTab 75X.

### **Price and Availability**

Bringing top-notch yet budget-friendly customizable mechanical keyboard lies in the spirit of the Epomaker Team. Crafted with precision and attention to detail, the DynaTab 75X is built to withstand rigorous daily use, whether in a professional office setting or an intense gaming session. Epomaker takes pride in presenting the DynaTab 75X to the mechanical keyboard world and announce its launch time on Kickstarter on Feb. 19<sup>th</sup> at 9:00 a.m. EST. The super-early bird price will be \$109. Make sure to follow Epomaker's website and stay tuned.

### **About us**

Epomaker is short for Epoch of Makers. We are committed to providing feature-packed keyboards with affordable pricing that ships worldwide. Our goals for our keyboards are three things: customizability, affordability, and high standards. We are a team composed of gamers, software engineers, product designers, and mechanical keyboard enthusiasts. We were inspired to create our own line of keyboards to share with the world. We wanted to make mechanical keyboards accessible to everyone. Our company is heavily dedicated towards our community-without their feedback and suggestions, this keyboard would have not been a reality.
