

International Virtual Learning Academy is an online accredited, NCAA approved, private school for students in grades kindergarten through grade twelve. IVLA is fully accredited by Cognia in the United States of America and is available to students in the U.S. and Internationally who are seeking a flexible U.S. education and diploma. Our students meet their educational goals and grow academically with the support of fully certified and caring online teachers.

Since 2007, IVLA has been the school of choice for the college prep student or any student looking for a self-paced option. The student body is represented by more than 50 countries. IVLA understands that students have different needs, academic goals, and abilities. As such, IVLA strives to meet the needs of every student.

The Mission at IVLA is to provide K-12 students with individualized attention in a safe, accepting, and accommodating online learning environment. IVLA provides students with the flexibility to learn at their own pace and schedule that meets their individual needs. The contemporary program and individualized plans help students discover their full potential.

IVLA Online High School offers over 2,000 challenge and diverse courses. Each semester-long course earns a 0.5 credit and students have 5 months to complete the course. Each year-long course earns a 1.0 credit and students have 10 months to complete the course. Full-time students spend anywhere between 3 to 5 hours a day working both on and offline.

IVLA provides students the opportunity to enroll or re-enroll at any time, so even without a class ranking, students are provided the flexibility they need to thrive. Over 200 IVLA courses meet the University of California (UC) a-g admission requirements, and over 75 of IVLA courses are approved by the National Collegiate Athletic Association (NCAA). Students are also able to join IVLA online National Honor Society Chapter (NHS). Students in grades 9 through 12 have an opportunity to take online dual college credit.
