

## Additional information for users

---

### Information for the artist

As a beginning artist you probably are not very known to listeners, and nowadays it is quite hard to get noticed in the immense stream of musicians. Sounded offers you a chance as an artist to get discovered without listeners needing to know your name. On Sounded you can upload sounds on a certain point on the map of the world. Users can find your sound on that same point on the map and they can like your sound. When you get more likes you'll be easier to find for other users. On this website it isn't about being famous anymore, it is about the quality of the music.

### Information for the listener

Sounded is a social music platform, designed to easily find new music without the need to know names of artists or songs. Sounds are being uploaded on a world map and can be found on that same spot. Now it's easy to discover what kind of music they make on the other side of the world, as well as in your own neighbourhood. You can discover a lot of different music cultures and styles without even needing to type in one letter. Sounded brings artists and music lovers from all over the world together.
