GANGSTERS & LOVERS DTGL

ARE YOU A GANGSTER OR A LOVER?

DoggTalk: Gangsters & Lovers, DTGL, is a sci-fi and fantasy adventure, NFT project that explores the inherited human values of love and violence.

Set on an undiscovered planet in the year 2277, Doggtopia is a modern Earth-like planet, known as Planet XXXX, solely ruled by the canines, known as the Doggs. In this world, the Doggs are gangsters or lovers. These Doggs are on a journey to learn the costs that love and war bear. Are you a gangster or lover?

By breaking the fourth wall, DTGL will provide our community with net value in real life, IRL, utilities that includes unique experiences and investment opportunities. Beyond advocating for diversity and equity in the NFT space we aim to educate while creating fresh lucrative equal opportunities for everyone.
